

**Follow this script so your child can complete the directional drawing.**

I want you to look at the image of the playground and listen as I say some different instructions. Make sure to listen carefully so you know what objects to draw and where to put them on the playground.

1. Draw a young girl on the slide.
2. Draw a boy in the tunnel.
3. Draw a ball under one of the swings.
4. Draw a teacher standing beside the climbing frame.
5. Draw a young girl in front of the tree house.
6. Draw a rabbit behind the flower bushes.
7. Draw a ball between the two goal posts.
8. Draw a young boy inside the tree house.
9. Draw a nest on one of the branches of the tree and draw a bird outside the nest.
10. Draw a teacher next to the tree that has the tree house in it.

I'll read the instructions once more so you can check your drawings and then colour in the picture.
